Dear Chair Fitzenhagen and Business & Professions Subcommittee members ,
SCCF urges your support of HB 401 Shark Fin Sale and Trade bill at the hearing Wednesday at 1pm.

Sharks and rays are threatened globally, and this bill will help close another door to the unsustainable international fin trade. Florida has become the center of US shark fin trade and remains the only large state to not ban the sale and possession of detached shark fins.

Please feel free to reach out to for questions or additional information.
